

# COASTAL COMPETITION

Heavy-duty system designed to  
withstand coastal winds  
and weather

Sturdy and durable system that is designed  
to survive the elements. This system is built  
to last!

Recommended for:  
**Recreational Programs**

## Features:

- 4" square heavy-walled aluminum with additional inside lateral support
- Powder coated white
- Internal lateral support strengthens the upright to withstand the heavy winds and weather typical in coastal regions
- Adjustable winch for play at any height
- Weather resistant net included
