Lag and disc attachment to a chain link fence

Features:

- 2" or 3" thick high-impact polyurethane foam
- 3/4" exterior grade sheathing, sealed and stained on all sides
- 18 oz. vinyl with UV protection
- Attachment: Z-clip (for wood and masonry walls) or Lag and Disc (for chain link fence)
- Available in several sizes and with returns
- Optional graphics available (*call for details*)

Protect players from injury during play

Protective padding is an essential component for providing a safe athletic environment. Reduce the risk of injury from unpredictable ricochets from foul tips and passed balls on the baseball field.

Recommended for:

Collegiate, High School, Elementary and Town Programs
